

ACCELERATING EXPONENTIAL SUCCESS

AccelRR8 Consortium NonProfit Industry Innovation Service v1

Industry Innovation Service Leader

August 9, 2026

Deliverables Produced During the Review Stage

Service Hypothesis

Funnel Entry Date	February 1, 2024
Service Name	Industry Innovation
Service Owner	Industry Innovation Service Leader
Service Description	FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry's impact THE AcceRR8 Consortium Non-Profit's Industry Innovation Service IS AN AI-powered innovation support function THAT helps patron-supported innovation teams use proven accelerators to develop innovative solutions. UNLIKE other associations that support innovation, OUR SERVICE's own success will be a key proof point of our Consortium's core premise: industry innovation teams, supported by generative learning and AI, use compounding innovation to develop solutions that address priority industry challenges, grow value exponentially, advance the state-of-the-art, and ultimately benefit humanity.
Business Outcomes	• Subscribers and Patrons: improve their professional network, skills / capabilities, brand, and opportunities • Tech Services industry: cross-company learning among leaders with scarce talents • AcceRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com)
Leading Indicators	1000 subscribers in the network who are net promoters of this service
Non-functional Requirements	• Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn't trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring • Performance: the Service's own success will be a key proof of our core premise, creating a virtuous cycle • Usability: participating in Industry Innovation as a subscriber and/or patron must be incredibly easy

Preliminary Cost Estimates and WSJF

Preliminary Cost Estimates	\$0: Donation of volunteer time by Core members at no cost to AccelRR8 Consortium Non-Profit \$0: Use of LinkedIn and other platforms at no cost to AccelRR8 Consortium Non-Profit
Relative Priority <i>Method: Weighted Shortest Job First (WSJF) Score*</i>	WSJF = 4, which is COST OF DELAY / JOB SIZE = 35 / 8 COST OF DELAY = 11 + 11 + 13 = 35 USER-BUSINESS VALUE = 11 Do stakeholders prefer this over other services? 13: the “grow value exponentially at scale” capability is valued What is the revenue impact on the Consortium? 1: the MVP is a free service, though some may donate Are there negative effects if we delay? 20: the Consortium’s other services depend on this one TIME CRITICALITY = 11 Is there a fixed deadline? 1: no fixed deadline Will they wait for us or move to another Solution? 20: AI maturity threatens relevancy What is the current effect on stakeholder satisfaction? 13: stakeholders want solutions that move the needle RISK REDUCTION AND/OR OPPORTUNITY ENABLEMENT = 13 Reduces the risk of this or future delivery? 13: compounding innovation is needed to attract patrons Is there value in the information we receive? 13: willingness of patrons and subscribers to engage Enable new business opportunities? 13: patrons and subscribers will learn about other Consortium services JOB SIZE = 8; Leaders will need to personally become patrons and develop initial solutions (6 months); Leaders will need to engage other Tech Services organization leaders to be patrons for innovation (6 months)

*See [SAFe WSJF article](#); scale for each root parameter is 1, 2, 3, 5, 8, 13, 20 (subset of the modified Fibonacci sequence)

Deliverables Produced During the Analysis Stage

Service Alternatives

Alternative 1: Free <i>SELECTED</i>	• Patron organizations and individuals can join the AcceRR8 Consortium network as advocates (free advertising, e.g., Bronze Tier)
Alternative 2: Fee-based <i>CONSIDER FOR FUTURE VERSION</i>	• Patron organizations and individuals can pay an annual fee and become higher-level patrons (e.g., Diamond, Platinum, Gold, Silver) to co-develop exponential solutions for priority industry challenges

Refined Cost Estimates and WSJF

Lean Business Case (1/5)

Funnel Entry Date: February 1, 2024	Offering Owner: Industry Innovation Service Leader	Key Stakeholders: Core Boosters: Board Members, Board Advisors
Offering Description: FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry's impact THE AcceIRR8 Consortium Non-Profit's Industry Innovation Service IS AN AI -powered innovation support function THAT helps patron-supported innovation teams use proven accelerators to develop innovative solutions. UNLIKE other associations that support innovation, OUR SERVICE's own success will be a key proof point of our Consortium's core premise: industry innovation teams, supported by generative learning and AI , use compounding innovation to develop solutions that address priority industry challenges, grow value exponentially, advance the state-of-the-art, and ultimately benefit humanity.		
Business Outcome Hypothesis: Subscribers and Patrons: improve their professional network, skills / capabilities, brand, and opportunities as measured via survey The Tech Services industry: cross-company learning among leaders with scarce talents as measured via survey of subscribers AcceIRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com) as measured via survey of subscribers		Leading Indicators: 1000 subscribers - are participating in the AcceIRR8 Consortium professional network, - have followed the AcceIRR8 Consortium organization in LinkedIn, and - are Net Promoters as measured via survey of subscribers.

Lean Business Case (2/5)

In Scope: • Patron organizations and individuals can join the AcceIRR8 Consortium network as advocates (free advertising, e.g., Bronze Tier)	Out of Scope: • Patron organizations and individuals can pay an annual fee and become higher-level patrons (e.g., Diamond, Platinum, Gold, Silver) to co-develop exponential solutions for priority industry challenges	Nonfunctional Requirements: • Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn't trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring • Performance: the Service's own success will be a key proof of our core premise, creating a virtuous cycle • Usability: participating in Industry Innovation as a subscriber and/or patron must be incredibly easy
Minimum Viable Product (MVP) Features • Patron organizations and individuals simply click to identify as an advocate for an innovation team in the AcceIRR8 Consortium's free electronic platform • Subscribers simply click to join sponsored innovation teams		Additional Potential Features • Free platform that facilitates collaboration among innovation team members (e.g., Discord)
Analysis Summary: • MVP desirability, viability, feasibility, and sustainability were verified by the Board of Directors as well as a subset of Advisors and Initial Subscribers.		Go / No-Go: Go!

Lean Business Case (3/5)

Solution Analysis	
Which Internal and/or external customers are affected, and how? Our MVP is focused on proving our core premise to establish credibility with our addressable market, which includes leaders and organizations across the Tech Services industry. We will do this by implementing proven accelerators to create Compounding Innovation among patron-supported Innovation Teams while harnessing Generative Learning and Artificial Intelligence.	
What is the potential impact on solutions, programs and services? As we gain credibility, we will create a virtuous cycle of exponential growth and impact, crossing the chasm from Early Adopters into Mainstream Adoption by leaders and organizations across the Tech Services industry, materially improving the Tech Services industry and helping humanity.	
What is the potential impact on sales, distribution, deployment and support? Demand Generation, Beneficiaries Engagement, and Delivery of Service for our MVP should be focused on getting leaders in recognizable organizations to become patrons and support industry innovation teams. As our Service mature beyond MVP, and we find new revenue sources, we will be able to invest in more sophisticated Demand Generation, Beneficiary Engagement, and Delivery of Service activities to further accelerate growth and impact.	
Forecasted Costs	
MVP Cost: Estimate: \$10K.	Estimated Implementation Cost: Initial estimate: \$125K
Forecasted Returns	
Type of Return: Leading Indicators: Increasing numbers of industry solutions adopted by and materially benefiting Tech Services industry enterprises, tripling every 2-3 years Lagging indicators: Increasing benefit to subscribers, patrons, the Tech Services industry, and humanity, as measured by subscriber and patron surveys	

Lean Business Case (4/5)

Development Strategy
In-house or Outsourced Development: In-house development: • Service Strategy, Context, Intent, Development Kit, Demand Generation Kit, Beneficiaries Engagement Kit, and Delivery of Service Kit Outsourced development: None
Incremental Implementation Strategy: The Product team will take the “Architectural effort precedes business functionality by one or a few iterations” strategy. The Industry Innovation Service MVP (v1) is a Portfolio-Level Business Epic being developed concurrently with the AcceIRR8 Framework open methodology and the AcceIRR8 Body of Knowledge Overview MVPs (v1), which in this context are Architectural Epics that support the Business Epic. Click here for details on the “Architectural effort precedes business functionality by one or a few iterations” strategy. © Scaled Agile, Inc.
Sequencing and Dependencies: Features of the AcceIRR8 Framework open methodology and the AcceIRR8 Body of Knowledge Overview MVPs (v1) will be developed before they are needed by the Consortium’s Industry Innovation Service v1.
