

ACCELERATING EXPONENTIAL SUCCESS

AccelRR8 Consortium NonProfit Professional Networking Service v1

Rich Reba, President

November 1, 2024

Proprietary and Confidential Information

Deliverables Produced During the Review Stage

Service Hypothesis

Funnel Entry Date	February 1, 2024
Service Name	Professional Networking
Service Owner	Rich Reba
Service Description	FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry’s impact THE AccelRR8 Consortium Non-Profit’s Professional Networking Service IS AN AI-powered support function connecting a global AccelRR8 professional network THAT helps leaders to network and practice growing value exponentially at scale together, to accelerate success for themselves, their industry, and all humanity. UNLIKE other associations that support professional networks, OUR SERVICE’s own success will be a key proof point of our Consortium’s core premise: due to network effects, value for all collaborators grows exponentially as their numbers grow linearly.
Business Outcomes	• Collaborators: improve their professional network, skills, brand, and career opportunities • Tech Services industry: cross-company learning among leaders with scarce talents • AccelRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com)
Leading Indicators	1000 collaborators in the AccelRR8 professional network who are net promoters of this service
Non-functional Requirements	• Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn’t trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring • Performance: the Service’s own success will be a key proof of our core premise, creating a virtuous cycle • Usability: becoming and remaining a collaborator must be incredibly easy

Preliminary Cost Estimates and WSJF

Preliminary Cost Estimates	\$0: Donation of volunteer time by leaders at no cost to AccelRR8 Consortium Non-Profit \$0: Use of LinkedIn and other platforms at no cost to AccelRR8 Consortium Non-Profit
Relative Priority	WSJF = 4, which is COST OF DELAY / JOB SIZE = 35 / 8 COST OF DELAY = 11 + 11 + 13 = 35 USER-BUSINESS VALUE = 11 Do collaborators prefer this over other services? 13: the “grow value exponentially at scale” skill is valued What is the revenue impact on the Consortium? 1: the MVP is a free service, though some may donate Are there negative effects if we delay? 20: the Consortium’s other services depend on this one TIME CRITICALITY = 11 Is there a fixed deadline? 1: no fixed deadline Will they wait for us or move to another Solution? 20: AI maturity threatens relevancy What is the current effect on collaborator satisfaction? 13: collaborators want exposure RISK REDUCTION AND/OR OPPORTUNITY ENABLEMENT = 13 Reduces the risk of this or future delivery? 13: critical mass of collaborators is needed for network effects Is there value in the information we receive? 13: willingness of collaborators to engage Enable new business opportunities? 13: collaborators will learn about other Consortium services JOB SIZE = 8; Leaders will need to personally engage 100+ initial collaborators (6 months); Each new collaborator will need to engage 10 additional collaborators (6 months)

*See [SAFe WSJF article](#); scale for each root parameter is 1, 2, 3, 5, 8, 13, 20 (subset of the modified Fibonacci sequence)

Deliverables Produced During the Analysis Stage

Service Alternatives

Alternative 1: Global, Free, Virtual Professional Network <i>SELECTED</i>	Help enterprising Tech Services leaders make connections and network virtually via free electronic platforms such as LinkedIn
Alternative 2: Local, Fee-based, In-Person Professional Network <i>CONSIDER FOR FUTURE VERSION</i>	(Like Toastmasters) Sponsor and host fee-based events to help enterprising Tech Services leaders make in-person connections and network in localities starting with the Washington, D.C. metro area

Refined Cost Estimates and WSJF

Preliminary Cost Estimates	\$0: Donation of volunteer time by leaders at no cost to AccelRR8 Consortium Non-Profit \$0: Use of LinkedIn and other platforms at no cost to AccelRR8 Consortium Non-Profit
Relative Priority <i>Method: Weighted Shortest Job First (WSJF) Score*</i>	WSJF = 4, which is COST OF DELAY / JOB SIZE = 35 / 8 COST OF DELAY = 11 + 11 + 13 = 35 USER-BUSINESS VALUE = 11 Do collaborators prefer this over other services? 13: the “grow value exponentially at scale” skill is valued What is the revenue impact on the Consortium? 1: the MVP is a free service, though some may donate Are there negative effects if we delay? 20: the Consortium’s other services depend on this one TIME CRITICALITY = 11 Is there a fixed deadline? 1: no fixed deadline Will they wait for us or move to another Solution? 20: AI maturity threatens relevancy What is the current effect on collaborator satisfaction? 13: collaborators want exposure RISK REDUCTION AND/OR OPPORTUNITY ENABLEMENT = 13 Reduces the risk of this or future delivery? 13: critical mass of collaborators is needed for network effects Is there value in the information we receive? 13: willingness of collaborators to engage Enable new business opportunities? 13: collaborators will learn about other Consortium services JOB SIZE = 8; Leaders will need to personally engage 100+ initial collaborators (6 months); Each new collaborator will need to engage 10 additional collaborators (6 months)

Lean Business Case (1/5)

Funnel Entry Date: February 1, 2024	Offering Owner: Rich Reba	Key Stakeholders: Core Boosters: Board Members, Sumo Mitro, Pete Tseronis
Offering Description: FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry's impact, THE AcceIRR8 Consortium Non-Profit's Professional Networking Service IS AN AI -powered support function connecting a global AcceIRR8 professional network THAT helps leaders to network and practice growing value exponentially at scale together, to accelerate success for themselves, their industry, and all humanity. UNLIKE other associations that support professional networks, OUR SERVICE's own success will be a key proof point of our Consortium's core premise: due to network effects , value for all collaborators grows exponentially as their numbers grow linearly.		
Business Outcome Hypothesis: Collaborators: improve their professional network, skills, brand, and career opportunities as measured via survey of collaborators The Tech Services industry: cross-company learning among leaders with scarce talents as measured via survey of collaborators AcceIRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com) as measured via survey of collaborators		Leading Indicators: 1000 collaborators - are participating in the AcceIRR8 Consortium professional network, and - are Net Promoters of this service as measured via survey of collaborators.

Lean Business Case (2/5)

In Scope: • Enterprising Tech Services leaders can join the AccelRR8 Consortium network as collaborators • Global, free, virtual professional network • Helps Tech Services leaders make connections and collaborate virtually via free electronic platforms	Out of Scope: • (Like Toastmasters) Individual leaders can join a club / local chapter for a one-time new member fee and a monthly membership fee • (Like ASUG) Organizations can pay an annual fee that covers Professional Networking fees for all employees	Nonfunctional Requirements: • Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn't trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of generating exponential results) is enduring • Performance: the organization's own success will be a key proof of our core premise, creating a virtuous cycle • Usability: becoming and remaining a collaborator must be incredibly easy
Minimum Viable Product (MVP) Features • Enterprising Tech Services leaders simply click to identify as a network collaborator in the AccelRR8 Consortium's free electronic platform	Additional Potential Features • Collaborators can learn about, and make connections directly with, each other • Consortium leaders can view analytics about network collaborators	
Analysis Summary: • MVP desirability, viability, feasibility, and sustainability were verified by the Board of Directors as well as a subset of Advisors and Initial Collaborators.	Go / No-Go: Go!

Lean Business Case (3/5)

Solution Analysis	
Which Internal and/or external customers are affected, and how? Our MVP is focused on proving our core premise to establish credibility with our addressable market, which includes leaders and organizations across the Tech Services industry. We will do this by implementing proven accelerators to create Network Effects among a Professional Network of 1,000+ initial collaborators while harnessing Generative Learning and Artificial Intelligence .	
What is the potential impact on solutions, programs and services? As we gain credibility, we will create a virtuous cycle of exponential growth and impact, crossing the chasm from Early Adopters into Mainstream Adoption by leaders and organizations across the Tech Services industry, materially improving the Tech Services industry and helping humanity.	
What is the potential impact on sales, distribution, deployment and support? Demand Generation, Customer Acquisition, and Service Fulfillment for our MVP should be focused on attracting and retaining 1,000+ initial collaborators, all who are Net Promoters of the Consortium’s services and its core premise. As our Service mature beyond MVP, and we find new revenue sources, we will be able to invest in more sophisticated Demand Generation, Customer Acquisition, and Service Fulfillment activities to further accelerate growth and impact.	
Forecasted Costs	
MVP Cost: An opportunity cost of one 10% fraction of Rich Reba’s time for 2 months, which is equivalent to \$10K.	Estimated Implementation Cost: Initial estimate: \$125K
Forecasted Returns	
Type of Return: Leading Indicators: Increasing numbers of collaborators in the Professional Network, tripling every 2-3 years Lagging indicators: Increasing benefit to collaborators, the Tech Services industry, and humanity, as measured by stakeholder surveys	

Lean Business Case (4/5)

Development Strategy
In-house or Outsourced Development: In-house development: • Service Strategy, Context, Intent, Development Kit, Demand Generation Kit, Customer Acquisition Kit, and Service Fulfillment Kit Outsourced development: None
Incremental Implementation Strategy: The Product team will take the “Architectural effort precedes business functionality by one or a few iterations” strategy. The Professional Networking Service v1 is a Portfolio-Level Business Epic being developed concurrently with the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1), which in this context are Architectural Epics that support the Business Epic. Click here for details on the “Architectural effort precedes business functionality by one or a few iterations” strategy. © Scaled Agile, Inc.
Sequencing and Dependencies: Features of the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1) will be developed before they are needed by the Consortium’s Professional Networking Service v1.
