

Lean Business Case for Open Knowledge Sharing v1

Funnel Entry Date: February 1, 2024	Epic Owner: Open Knowledge Sharing Service Leader	Key Stakeholders: Core Boosters: Board Members, Board Advisors
Epic Description: FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry's impact THE AccelRR8 Consortium Non-Profit's Open Knowledge Sharing Service IS AN AI -powered support function facilitating ideation across a global AccelRR8 professional network THAT helps leaders rapidly share ideas and align on authoritative best practices for growing value exponentially at scale. UNLIKE other associations that support open knowledge sharing, OUR SERVICE's own success will be a key proof point of our Consortium's core premise: (1) high-value ideas will go viral , propagating exponentially fast and wide across the network, and (2) successful ideas are added via generative learning to the AccelRR8 Body of Knowledge, curated with the help of expert advisors.		
Business Outcome Hypothesis: Subscribers: improve their professional network, skills, brand, and career opportunities as measured via survey of subscribers The Tech Services industry: cross-company learning among leaders with scarce talents as measured via survey of subscribers AccelRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com) as measured via survey of subscribers		Leading Indicators: 1000 subscribers participating in the AccelRR8 Consortium professional network are Net Promoters of this service as measured via survey of subscribers.
In Scope: - Subscribers can share ideas with one another via an online platform - Subscribers can access the AccelRR8 Body of Knowledge, including the AccelRR8 Framework - Subscribers can participate in Consortium webinars	Out of Scope: (Like PMI) Individual leaders can take an exam for a one-time fee, and maintain a certification for an annual renewal fee (Like ASUG) Organizations can pay an annual fee that covers Open Knowledge Sharing fees for all employees (Like various standards bodies) Organizations can pay an annual fee to help govern and evolve the AccelRR8 BOK	Nonfunctional Requirements: Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture Viability: the Consortium has the required capabilities and isn't trying to boil the ocean Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring Performance: the Service's own success will be a key proof of our core premise, creating a virtuous cycle

Lean Business Case for Open Knowledge Sharing v1

		Usability: participating in ideation across the network and using the AccelRR8 BOK must be incredibly easy
Minimum Viable Product (MVP) Features - Subscribers join and use a free online platform to share ideas with one another - Subscribers visit the AccelRR8 Body of Knowledge published on a free blog site - Subscribers sign up for and view free AccelRR8 Consortium Webinars	Additional Potential Features AccelRR8 Framework and its Components added to the AccelRR8 Body of Knowledge: Compounding Innovation, Network Effects, Viral Ideation, Generative Learning, and Artificial Intelligence	
Analysis Summary: MVP desirability, viability, feasibility, and sustainability were verified by the Board of Directors as well as a subset of Advisors and Initial Subscribers.	Go / No-Go: Go!

Solution Analysis	
Which Internal and/or external customers are affected, and how? Our MVP is focused on proving our core premise to establish credibility with our addressable market, which includes leaders and organizations across the Tech Services industry. We will do this by implementing proven accelerators to create Viral Ideation among a Professional Network of 1,000+ initial subscribers while harnessing Generative Learning and Artificial Intelligence .	
What is the potential impact on solutions, programs and services? As we gain credibility, we will create a virtuous cycle of exponential growth and impact, crossing the chasm from Early Adopters into Mainstream Adoption by leaders and organizations across the Tech Services industry, materially improving the Tech Services industry and helping humanity.	
What is the potential impact on sales, distribution, deployment and support? Demand Generation, Beneficiary Engagement, and Delivery of Service for our MVP should be focused on ideation among 1,000+ initial subscribers to ensure they are Net Promoters of the Consortium's services and its core premise. As our Service mature beyond MVP, and we find new revenue sources, we will be able to invest in more sophisticated Demand Generation, Customer Acquisition, and Service Fulfillment activities to further accelerate growth and impact.	
Forecasted Costs	
MVP Cost: Estimate: \$10K	Estimated Implementation Cost: Initial estimate: \$125K
Forecasted Returns	
Type of Return: Leading Indicators: Increasing numbers of viral ideas shared across the AccelRR8 Consortium Professional Network, tripling every 2-3 years Lagging indicators: Increasing benefit to subscribers, the Tech Services industry, and humanity, as measured by subscriber and patron surveys

Development Strategy
In-house or Outsourced Development: In-house development: • Service Strategy, Context, Intent, Development Kit, Demand Generation Kit, Beneficiaries Engagement Kit, and Delivery of Service Kit Outsourced development: None
Incremental Implementation Strategy: The Product team will take the “Architectural effort precedes business functionality by one or a few iterations” strategy. The Open Knowledge Sharing Service v1 is a Portfolio-Level Business Epic being developed concurrently with the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1), which in this context are Architectural Epics that support the Business Epic. Click here for details on the “Architectural effort precedes business functionality by one or a few iterations” strategy. © Scaled Agile, Inc.
Sequencing and Dependencies: Required features of the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1) will be developed before they are needed by the Consortium’s Open Knowledge Sharing Service v1.

Additional Supporting Data
Attachments: See Open Knowledge Sharing Service Components on Next Slide. These include Service Strategy, Context, Intent, Development Kit, Demand Generation Kit, Beneficiaries Engagement Kit, and Delivery of Service Kit components.
Other Notes and Comments: Methodologies used to develop the Open Knowledge Sharing Service MVP include: - The AccelRR8 Framework produced by AccelRR8 LLC - The Scaled Agile Framework produced by Scaled Agile, Inc.
