

ACCELERATING EXPONENTIAL SUCCESS

AcceRR8 Consortium NonProfit Professional Networking Service v1

Professional Networking Service Leader

August 9, 2026

Deliverables Produced During the Review Stage

Service Hypothesis

Funnel Entry Date	February 1, 2024
Service Name	Professional Networking
Service Owner	Professional Networking Service Leader
Service Description	FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry’s impact THE AcceRR8 Consortium Non-Profit’s Professional Networking Service IS AN AI-powered support function connecting a global AcceRR8 professional network THAT helps leaders to network and practice growing value exponentially at scale together, to accelerate success for themselves, their industry, and all humanity. UNLIKE other associations that support professional networks, OUR SERVICE’s own success will be a key proof point of our Consortium’s core premise: due to network effects, value for all subscribers grows exponentially as their numbers grow linearly.
Business Outcomes	• Subscribers: improve their professional network, skills, brand, and career opportunities • Tech Services industry: cross-company learning among leaders with scarce talents • AcceRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com)
Leading Indicators	1000 subscribers in the AcceRR8 professional network who are net promoters of this service
Non-functional Requirements	• Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn’t trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring • Performance: the Service’s own success will be a key proof of our core premise, creating a virtuous cycle • Usability: becoming and remaining a subscriber must be incredibly easy

Preliminary Cost Estimates and WSJF

Preliminary Cost Estimates	\$0: Donation of volunteer time by leaders at no cost to AccelRR8 Consortium Non-Profit \$0: Use of LinkedIn and other platforms at no cost to AccelRR8 Consortium Non-Profit
Relative Priority	WSJF = 4, which is COST OF DELAY / JOB SIZE = 35 / 8 COST OF DELAY = 11 + 11 + 13 = 35 USER-BUSINESS VALUE = 11 Do subscribers prefer this over other services? 13: the “grow value exponentially at scale” skill is valued What is the revenue impact on the Consortium? 1: the MVP is a free service, though some may donate Are there negative effects if we delay? 20: the Consortium’s other services depend on this one TIME CRITICALITY = 11 Is there a fixed deadline? 1: no fixed deadline Will they wait for us or move to another Solution? 20: AI maturity threatens relevancy What is the current effect on subscriber satisfaction? 13: collaborators want exposure RISK REDUCTION AND/OR OPPORTUNITY ENABLEMENT = 13 Reduces the risk of this or future delivery? 13: critical mass of subscribers is needed for network effects Is there value in the information we receive? 13: willingness of subscribers to engage Enable new business opportunities? 13: subscribers will learn about other Consortium services JOB SIZE = 8; Leaders will need to personally engage 100+ initial subscribers (6 months); Each new subscriber will need to engage 10 additional subscribers (6 months)

*See [SAFe WSJF article](#); scale for each root parameter is 1, 2, 3, 5, 8, 13, 20 (subset of the modified Fibonacci sequence)

Deliverables Produced During the Analysis Stage

Service Alternatives

Alternative 1: Global, Free, Virtual Professional Network <i>SELECTED</i>	Help enterprising Tech Services leaders make connections and network virtually via free electronic platforms such as LinkedIn
Alternative 2: Local, Fee-based, In-Person Professional Network <i>CONSIDER FOR FUTURE VERSION</i>	(Like Toastmasters) Sponsor and host fee-based events to help enterprising Tech Services leaders make in-person connections and network in localities starting with the Washington, D.C. metro area

Refined Cost Estimates and WSJF

Preliminary Cost Estimates	\$0: Donation of volunteer time by leaders at no cost to AccelRR8 Consortium Non-Profit \$0: Use of LinkedIn and other platforms at no cost to AccelRR8 Consortium Non-Profit
Relative Priority <i>Method: Weighted Shortest Job First (WSJF) Score*</i>	WSJF = 4, which is COST OF DELAY / JOB SIZE = 35 / 8 COST OF DELAY = 11 + 11 + 13 = 35 USER-BUSINESS VALUE = 11 Do subscribers prefer this over other services? 13: the “grow value exponentially at scale” skill is valued What is the revenue impact on the Consortium? 1: the MVP is a free service, though some may donate Are there negative effects if we delay? 20: the Consortium’s other services depend on this one TIME CRITICALITY = 11 Is there a fixed deadline? 1: no fixed deadline Will they wait for us or move to another Solution? 20: AI maturity threatens relevancy What is the current effect on subscriber satisfaction? 13: subscribers want exposure RISK REDUCTION AND/OR OPPORTUNITY ENABLEMENT = 13 Reduces the risk of this or future delivery? 13: critical mass of subscribers is needed for network effects Is there value in the information we receive? 13: willingness of subscribers to engage Enable new business opportunities? 13: subscribers will learn about other Consortium services JOB SIZE = 8; Leaders will need to personally engage 100+ initial subscribers (6 months); Each new subscriber will need to engage 10 additional subscribers (6 months)

Lean Business Case (1/5)

Funnel Entry Date: February 1, 2024	Offering Owner: Professional Networking Service Leader	Key Stakeholders: Core Boosters: Board Members, Board Advisors
Offering Description: FOR enterprising leaders involved or interested in the Tech Services industry WHO want to improve their career opportunities and the Tech Services industry’s impact, THE AcceIRR8 Consortium Non-Profit’s Professional Networking Service IS AN AI -powered support function connecting a global AcceIRR8 professional network THAT helps leaders to network and practice growing value exponentially at scale together, to accelerate success for themselves, their industry, and all humanity. UNLIKE other associations that support professional networks, OUR SERVICE’s own success will be a key proof point of our Consortium’s core premise: due to network effects , value for all subscribers grows exponentially as their numbers grow linearly.		
Business Outcome Hypothesis: Subscribers: improve their professional network, skills, brand, and career opportunities as measured via survey of subscribers The Tech Services industry: cross-company learning among leaders with scarce talents as measured via survey of collaborators AcceIRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com) as measured via survey of subscribers		Leading Indicators: 1000 subscribers - are participating in the AcceIRR8 Consortium professional network, and - are Net Promoters of this service as measured via survey of subscribers.

Lean Business Case (2/5)

In Scope: • Enterprising Tech Services leaders can join the AccelRR8 Consortium network as subscribers • Global, free, virtual professional network • Helps Tech Services leaders make connections and collaborate virtually via free electronic platforms	Out of Scope: • (Like Toastmasters) Individual leaders can join a club / local chapter for a one-time new member fee and a monthly membership fee • (Like ASUG) Organizations can pay an annual fee that covers Professional Networking fees for all employees	Nonfunctional Requirements: • Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn't trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of generating exponential results) is enduring • Performance: the organization's own success will be a key proof of our core premise, creating a virtuous cycle • Usability: becoming and remaining a subscriber must be incredibly easy
Minimum Viable Product (MVP) Features • Enterprising Tech Services leaders simply click to identify as a network subscriber in the AccelRR8 Consortium's free electronic platform	Additional Potential Features • Subscribers can learn about, and make connections directly with, each other • Consortium leaders can view analytics about network subscribers	
Analysis Summary: • MVP desirability, viability, feasibility, and sustainability were verified by the Board of Directors as well as a subset of Advisors and initial subscribers.	Go / No-Go: Go!

Lean Business Case (3/5)

Solution Analysis

Which Internal and/or external customers are affected, and how?

Our MVP is focused on proving our core premise to establish credibility with our addressable market, which includes leaders and organizations across the Tech Services industry. We will do this by implementing proven accelerators to create **Network Effects** among a Professional Network of 1,000+ initial subscribers while harnessing **Generative Learning** and **Artificial Intelligence**.

What is the potential impact on solutions, programs and services?

As we gain credibility, we will create a virtuous cycle of exponential growth and impact, crossing the chasm from Early Adopters into Mainstream Adoption by leaders and organizations across the Tech Services industry, materially improving the Tech Services industry and helping humanity.

What is the potential impact on sales, distribution, deployment and support?

Demand Generation, Customer Acquisition, and Service Fulfillment for our MVP should be focused on attracting and retaining 1,000+ initial subscribers, all who are Net Promoters of the Consortium's services and its core premise. As our Service mature beyond MVP, and we find new revenue sources, we will be able to invest in more sophisticated Demand Generation, Beneficiary Engagement, and Delivery of Service activities to further accelerate growth and impact.

Forecasted Costs

MVP Cost:

Estimate: \$10K

Estimated Implementation Cost:

Initial estimate: \$125K

Forecasted Returns

Type of Return:

Leading Indicators: Increasing numbers of subscribers in the Professional Network, tripling every 2-3 years

Lagging indicators: Increasing benefit to subscribers, the Tech Services industry, and humanity, as measured by stakeholder surveys

Lean Business Case (4/5)

Development Strategy
In-house or Outsourced Development: In-house development: • Service Strategy, Context, Intent, Development Kit, Demand Generation Kit, Beneficiary Engagement Kit, and Delivery of Service Kit Outsourced development: None
Incremental Implementation Strategy: The Product team will take the “Architectural effort precedes business functionality by one or a few iterations” strategy. The Professional Networking Service v1 is a Portfolio-Level Business Epic being developed concurrently with the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1), which in this context are Architectural Epics that support the Business Epic. Click here for details on the “Architectural effort precedes business functionality by one or a few iterations” strategy. © Scaled Agile, Inc.
Sequencing and Dependencies: Required features of the AccelRR8 Framework open methodology and the AccelRR8 Body of Knowledge Overview MVPs (v1) will be developed before they are needed by the Consortium’s Professional Networking Service v1.
