Business Outcomes:	• Subscribers: improve their professional network, skills, brand, and career opportunities • Tech Services industry: cross-company learning among leaders with scarce talents • AccelRR8 Consortium: exponential benefits via Market Network Effects (per nfx.com)

Nonfunctional Requirements (NFRs):	• Desirability: all want exponential success, few know how to generate it, and stakeholders like our values and culture • Viability: the Consortium has the required capabilities and isn't trying to boil the ocean • Sustainability: the core premise (proven accelerators mathematically capable of exponential results) is enduring • Performance: the Service's own success will be a key proof of our core premise, creating a virtuous cycle
